## WATER CONSERVATION

We love green lawns, but we love staying hydrated even more. Please consider a voluntary cut-back on water usage so we don't have to impose restrictions later on. Here are a few Water wise ideas we found...

**Water efficiently:** No lawn in any season needs daily watering. Specialists recommend 3X per week. (For those with timers: one to four minutes per time, 3 or 4 times each watering day.)

**Adjust watering seasonally:** Turn sprinklers off or down during cool spells and when raining.

**Maintain sprinklers:** Broken heads and pipes can waste water. Water lawns and flowers separately for most efficient coverage.

**Cut grass higher:** Longer blades hold the water in the soil & reduce lawn stress.

**Leave grass clippings in place:** Use a mulch mower and let the clippings restore nitrogen naturally.

## ANIMAL CONTROL NOTICE

Dogs, like kids, have a tendency to want to play outside more in the summer. Unfortunately, it is a problem to have dogs running freely and can result in fines and fees for their doggy parents. Please be mindful of where your dogs (and kids) are at all times. Fireworks can be scary for dogs. Make sure they are safe and secure, so they don't run off.

## DID YOU KNOW...

Fire restrictions are in effect for most of the State of Utah...know before you go, especially with camping/fireworks season. Its not just vegetation that burns, firefighters are trying to protect human life and property, and reduce the devastating affect on the wildlife. For current fire restrictions see your local police and fire websites or our fire restrictions listings:

<https://firemarshal.utah.gov/departmen-t-services/fireworks-restricted-areas/>

Just because you can buy it, does not mean it is legal to discharge during current conditions or restrictions.
