Mayor Bunker called the public hearing to order at 6:45 p.m. He stated that notice of the time, place and agenda of the public hearing had been posted at the City Building, on the Utah Public Notice website, on the Delta City website, and provided to the Millard County Chronicle/Progress and to each member of the City Council at least two days prior to the meeting.

Mayor Bunker stated that the purpose of the public hearing was to receive public comment regarding the environmental study conducted in preparation for the Sherwood Shores Water Project. Mayor Bunker noted that Robert Worley, of Sunrise Engineering, was in attendance at the public hearing. Mr. Worley advised Council Members that a public hearing had previously been held where the ramifications of the environmental study were explained. A few modifications have been made to the environmental assessment; it has been reviewed by the Division of Drinking Water and been deemed that no significant environmental impact would result from this project. The Finding of No Significant Impact (FONSI) has been issued for the project.

Mayor Bunker opened the public hearing to comment from the public. There being no public in attendance, there were no comments received.

Mr. Worley advised Council Members that, when the minutes of this public hearing are prepared, they will be forwarded to the Division of Drinking Water for verification that there were no additional comments regarding the environment assessment. At that point, the project is ready to

begin, with the understanding that, if environmental impacts are discovered during construction, the project will cease until mitigation has been completed.

There being no further comments, Mayor Bunker declared the public hearing closed at 6:50 p.m.
