

The City Council then considered protests so filed, whether written or oral, and heard each and every person who wished to be heard in protest against the creation of the District and the construction of said improvements therein.

After consideration of such protests and the statements of those persons heard as aforesaid, it was determined that the total assessed valuation of property represented by said protests is less than fifty percent (50%) of the total assessed valuation of property to be assessed within the District and is a percentage insufficient to legally protest the creation of said District.

Councilmember _____ introduced the following resolution in writing, which was fully discussed, and moved its adoption:
